FINANCIALbuilders FCU

For Immediate Release February 8, 2010

PRESS RELEASE

Recent internal and external economic variables have caused FINANCIALbuilders Federal Credit Union to make some difficult decisions.

Financial Builders Federal Credit Union maintains a "**Well Capitalized**" rating with the National Credit Union Administration (December 2009 5300 Call Report) and exceeds the required capital requirements established by our governing agency. This means that the credit union is financially stable. But, we are at a juncture that requires changes to insure the continued service quality and a membership trust that FINANCIALbuilders Federal Credit Union take very seriously and appreciates.

It is with much regret that member services at the 2136 North Cooper will temporarily be suspended. This change will be effective February 16, 2010.

We will continue to meet all your financial service needs at our main office located at 2828 South Lafountain, Kokomo. All ATM based transactions will still be available at our current ATM's located throughout the Kokomo area. The ATM at the 2136 North Cooper will remain open for member service.

Additionally, **Financial Builders Federal Credit Union will be adding Saturday morning drive-up hours to accommodate our member service needs beginning February 20, 2010 at the 2828 S. Lafountain office, 9:00 a.m. to 12:00 Noon.**

Thank you for your understanding as we make these operational adjustments. If you have any questions please see or call Cindy Brock or Brian Bargerhuff.
